

March 3, 2006

Good Day to the Brethren of District Five!

As the host of this years district meeting, in our town of Destin, which is referred to as the luckiest fishing village in the world, and the home of the most beautiful beaches in the world. Denise and I are honored to be this year's host. We have organized a program that will allow everyone to catch-up on the latest and greatest information that Wilbert, Inc. and WFS has planned for 2006, as well as an opportunity to enjoy many of the amenities that our area offers. There is Deep Sea Fishing, Back Country Fishing, Shopping, Day Spa, Championship Golf, and Much, Much More.

The Recent wave of hurricanes during the past two years (Destin has been involved in four major storms.) has caused a complete beach restoration program. It will begin in Sandestin (Where our hotel is located.) and go westward to the East Pass. Each day approximately 250 ft. of beachfront will be completed. That equates to 43,000 cubic yards of sand, or about 8000 tons a day. The underwater burrow site has been tested and has the same grain composition, size, and color. Once exposed to the natural elements it will look and feel the same.

Because of Spring Break and the Pre and Post Easter week the hotel has given us a deadline of March 20, 2006 to make our reservations.

District Meeting April 23-26, 2006
Hilton at Sandestin
4000 Sandestin Blvd. South
Destin, Florida 32550
